

Automated Reasoning

Practical assignment, Part I

Hein van Beers, Jeroen van Hoof

December 1, 2015

1 Problem 1

Figure 1: Placement of pallets on truck. The first two trucks have facility for cooling skipples.

2 Problem 2

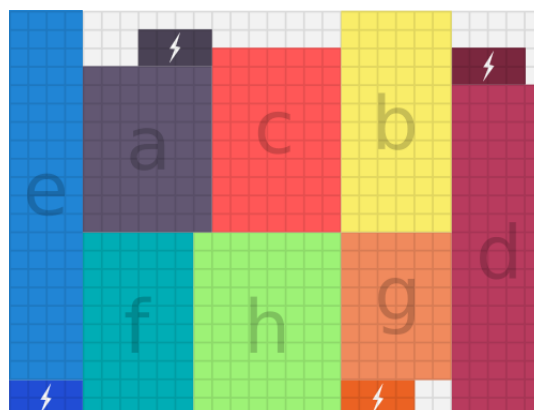

Figure 2: Placement of components on chip.

3 Problem 3

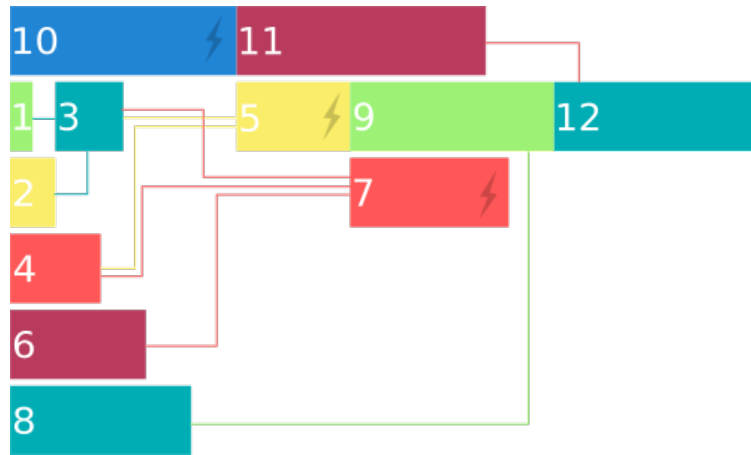

Figure 3: Time-line of process execution. Connected processes depend on each other, special processes are marked with a sign.
